

## LOW CARBON CONTRACTS COMPANY

*This guidance is to illustrate the form and content of the description of the Facility which is currently likely to be acceptable to the CfD Counterparty, pursuant to paragraph (C) of Part A (Initial Conditions Precedent) of Schedule 1 (Conditions Precedent) to the Contract for Difference Standard Terms and Conditions. The CfD Counterparty reserves the right to seek more information or clarification of the information provided as it considers necessary.*

Generators should seek to provide a description of the “Facility”<sup>1</sup> which includes the information illustrated in the example shown below.

### Provided in the form of a plan of the Facility

- An aerial map, chart or plan of the geographic co-ordinates that is to scale, with the scale provided.
- Four extreme compass co-ordinates **must** be shown in WGS84 format.
- All boundaries of the Facility must be shown.
- The location of all assets that can be deemed to be Material Equipment including those defined in Annex 5 of the CfD Agreement for each of the relevant technologies.

### A description of the facility

- A description of the general location of the site.
- Lease area (if applicable).
- Summary of Material Equipment including those defined in Annex 5 of the CfD Agreement for each of the relevant technologies

### As an example for an Offshore Wind project

- *“The project is located in ♦ Estuary, some ♦km North of ♦ and covers an area of approximately ♦km<sup>2</sup>”*
- *“The Crown Estate lease area was granted as part of the Scottish Territorial Waters programme with the size of the site being ♦ and with the reference details being ♦”.*
- *“The project is expected to consist of ♦ x ♦MW turbines. The typical water depth of the site is between ♦ and ♦m. The turbines will be mounted on (jackets/monopoles/♦).*
- *The project has ♦ offshore substations and the turbines are in ♦ loops.*

### As an example for an Energy from waste with CHP project

- *The ♦ Facility is a ♦ line energy-from-waste facility with CHP.*
- *The Facility capacity as per planning consent ref: ♦ is ♦ tonnes per annum.*
- *The Facility is located in ♦.*
- *The major assets comprising the Facility include: waste fuel reception and waste fuel storage; boiler with moving grate technology; power generation and export equipment comprising of turbine-generator, associated switch gear and facility metering equipment; transformers; air cooled condensers; flue gas treatment; and boiler water treatment.*

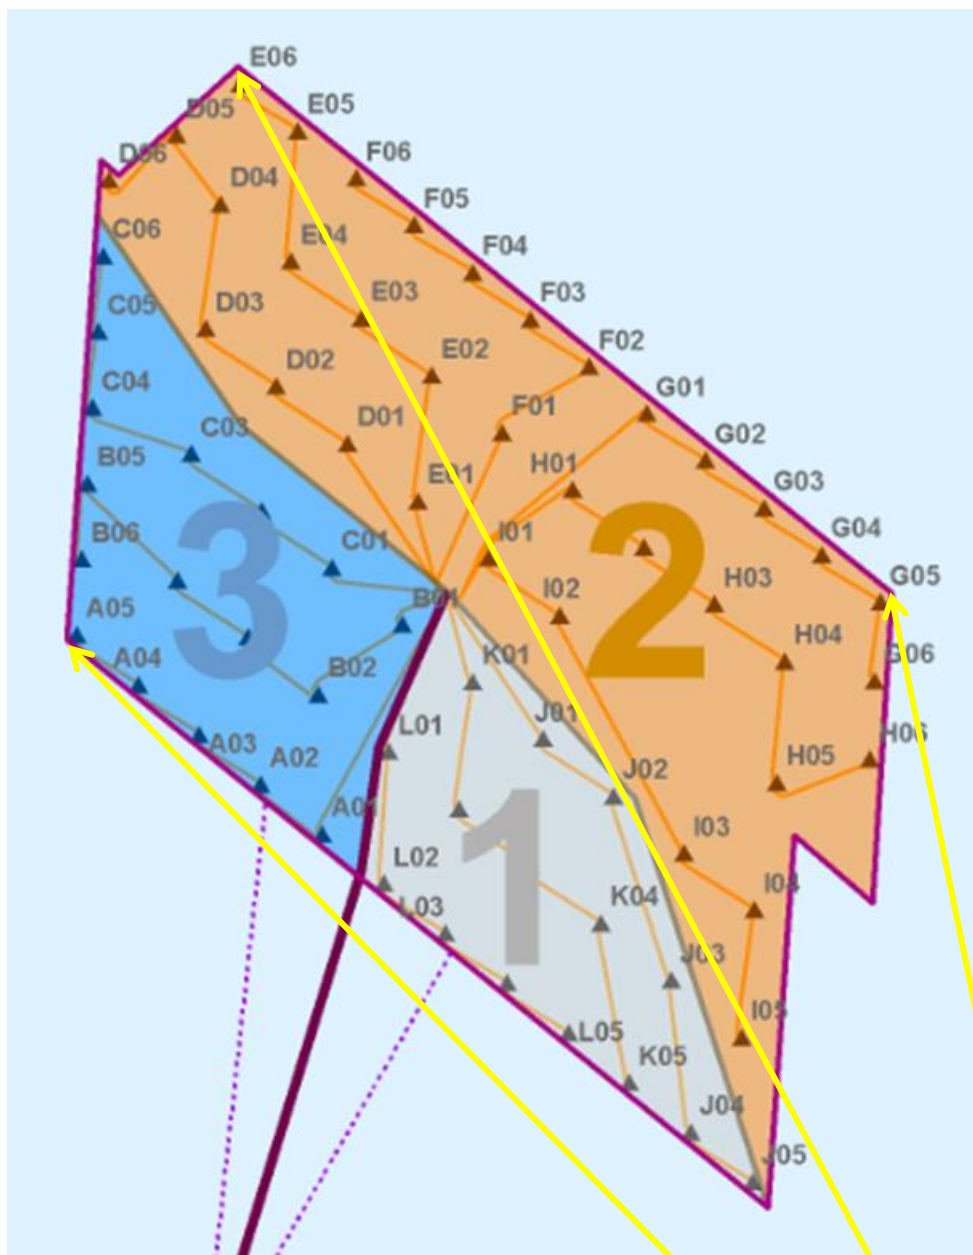

If you have any further queries regarding the description of the facility then please contact your Contract Manager who will be happy to help.
