The interim Levy Rate (ILR) and total reserve amount (TRA) for Q3 2020 are now set. LCCC has determined that the Levy Rate (ILR) for Q3 is set £8.532 MWh and the total Reserve Amount (TRA) at £77,016,653.44 for 1 July 2020 to 30 September 2020 (Q3).

Quarterly Obligation Period – 1 July to 30 September 2020
Interim Levy Rate
£8.532/MWh

Quarterly Obligation Period – 1 July to September 2020
Total Reserve Amount
£77,016,653.44

The details of the calculations can be found on the LCCC website under the [levy dashboards](#) .

COVID 19

Managing the CfD Supplier Obligation - implications for Quarter 2 and beyond

LCCC has not accounted for reductions on gross demand or any other impact due to the Covid-19 virus due to the uncertainty of the current situation. As the impacts of the current situation become clearer, LCCC may need to make an upward adjustment to the ILR and/or TRA for both Q2 and Q3. For both quarters LCCC will give at least suppliers 30 days' notice of any increase. For Q2 this means a potential increase in ILR, and an additional TRA, part way through the quarter. LCCC will continue to monitor the situation with regard to the Covid-19 carefully for as long as necessary.

The details of the calculations can be found on the LCCC website under the levy dashboards at <https://www.lowcarboncontracts.uk/dashboards/cfd/levy-dashboards>
