

# CfD and CM Bulletin

## 22 July 2021

---

### Q3 2021 ILR and TRA – clarification

---

The bulletin issued on [28 June 2021](#) outlined adjustments to the Interim Levy Rate (ILR) and Total Reserve Amount (TRA) for the Quarterly Obligation Period 1 July 2021 to 30 September 2021.

The bulletin stated, “In making this determination, LCCC has assumed the period in question will not be subject to any prolonged period of national lockdown and that reductions in demand due to COVID-19

will be 2% compared with the demand we would otherwise have expected.”

However, this should have said, “LCCC has assumed that for the period in question demand will not be materially impacted by COVID-19.”

For further detail, please refer to our online [CfD Levy Dashboards](#). To register for our 23 July webinar on the Q4 ILR and TRA, please visit our [Events](#) page.

### Triton Knoll offshore wind farm: Phases 1 and 2 now online

LCCC is delighted to confirm that Phases 1 and 2 of Triton Knoll Offshore Wind Farm have achieved their Start Dates and are receiving payments under their Contracts for Difference (CfD).

Under the terms of the CfD, the contractual milestone of Operational Conditions Precedent (OCP) signifies a project has

satisfied the eligibility criteria required for it to start generating electricity and receiving CfD payments. Achieving this milestone required Triton Knoll to evidence commissioning of at least 80% of its ICE (Installed Capacity Estimate) for both Phase 1 and Phase 2. Triton Knoll P1 achieved its OCP and Start Date on 17 May 2021, while P2 achieved its OCP and Start Date on 6 July 2021.
