

CfD and CM Bulletin

07 July 2022

BEIS has published the results of Allocation Round 4

Allocation Round 4 results announced

Today, 7 July, the Department for Business, Energy & Industry Strategy (BEIS) has announced the results of Contracts for Difference (CfD) Allocation Round 4.

A total of ninety-three new renewable electricity projects have won CfDs, which include offshore wind, onshore wind, solar, advanced conversion technologies, floating offshore wind, tidal stream and remote island wind. The auction has delivered nearly 11GW of new clean energy to be added to the grid by 2028. Read the [full press release](#); more about the [results on gov.uk](#).

Huge congratulations to all of the contract winners announced today, we're looking forward to working with you imminently and throughout the coming years. This latest generation of low carbon power projects couldn't come at a more important time, given the impact of volatile fossil fuel markets on energy prices in the

last year and the crucial timing of our actions to counter climate change. The scale and diversity of projects supported through AR4 will provide secure, reliable home-grown power for decades to come, bringing benefits for communities and businesses by modernising electricity generation across Great Britain

Neil McDermott, LCCC Chief Executive

Next stage for successful applicants

LCCC will be sending out contracts via DocuSign to successful applicants on the following dates:

Pot 1: 12 – 15 July 2022

Pots 2 and 3: 15 – 19 July 2022

The Generators will have 10 Working Days from contract being issued to return a signed copy to LCCC.

For more information on the contract production process, watch our [recent webinar](#).
