Information on CFD Supplier Obligation

Adjusted Interim Levy Rate (ILR) and Total Reserve Amount (TRA) for Q4 2018

LCCC has confirmed that the adjusted Interim Levy Rate for Q4 is set at £3.669/MWh (reduced from £4.080/MWh) and the Total Reserve Amount is set at £48,089,462.30 (reduced from £53,479,738.52) for the period from 01 October 2018 to 31 December 2018. The reason for the Q4 2018 reduction of ILR and TRA is due to the rise in market prices, resulting in less generator payments than originally forecasted.
