

24 DECEMBER 2018

Low Carbon Contracts Company congratulates further generators passing their 12-month milestones

Low Carbon Contracts Company (LCCC) is delighted to announce that a further three Contracts for Difference (CFD) projects have passed their first milestone. This follows our earlier announcement on 15 October that 95% of Allocation Round 2 capacity had passed the Milestone Requirement.

The CFD projects that have recently passed their Milestone Requirement are:

| Project Name | Technology | Capacity awarded in the Allocation Round |
|--|--------------------------------|--|
| Blackbridge TGS1 Limited | Advanced Conversion Technology | 5.56 MW |
| Neart Na Gaoithe (Allocation Round 1 project) | Offshore Wind | 448 MW |
| Northacre Renewable Energy Centre | Advanced Conversion Technology | 25.50 MW |

Drakelow Renewable Energy Centre, an Allocation Round 2 project, failed to make sufficient progress by the Milestone Delivery Date and has consequently had its contract terminated.

This concludes the Milestone Requirement process for all Allocation Rounds 1 and 2 projects.

ENDS

Notes to Editor:

- Low Carbon Contracts Company (LCCC) is the designated CfD Counterparty to Contracts for Difference (CfDs) and Investment Contracts awarded to generators under the government's CfD scheme.
- The CfD scheme delivers outcomes in support of the government's objectives of ensuring the UK has reliable, affordable, and clean electricity.
- LCCC manages a portfolio of Contracts for Difference (CfDs) with low carbon generators building over 13GW of new capacity. The current CfD portfolio consists of advanced conversion technologies, biomass conversion, dedicated biomass and energy from waste with CHP, onshore and offshore wind, solar plants and the Hinkley Point C nuclear power plant.
